

YOXALL LODGE

FORMAT ARCHITECTS
UK

Yoxall lodge will sit within an 18th century wall on the historical Yoxall lodge estate.

We partnered with Format architects to bring this 3,500sqft contemporary home to life, our set of CGI's presented the building secluded by both the existing landscape and the new, formal gardens with colourful grasses and curving pathways.

A combination of dusk and day imagery was used to highlight the clean and elegant form of the architecture, and guide attention to the modern interior palette.
